AUTUMN 2024

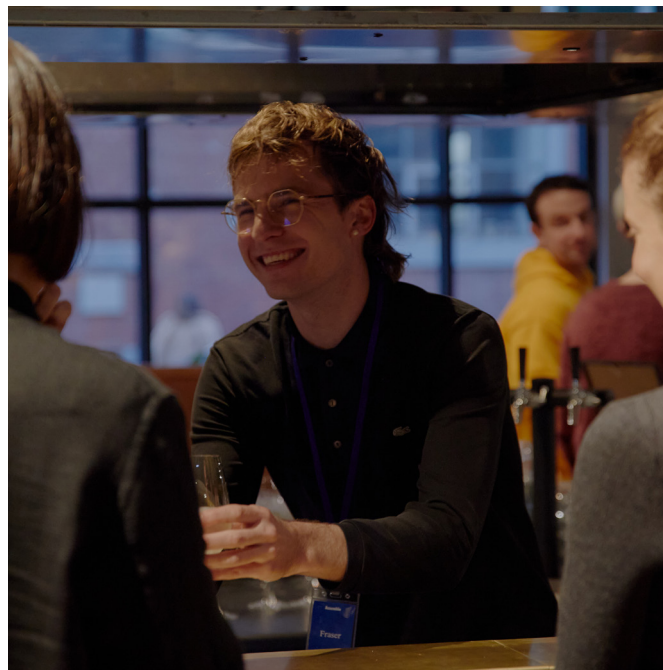

OUR VENUE

Designed by Six Degrees, Cassette is a light-filled, welcoming space for all to kick back in and unwind.

Once the home of tape gurus Dex Audio, the space now houses a cosy cafe and community gathering space with friendly faces to greet and serve you.

Accented by Australian spotted gum, terrazzo and raw metals, the form and feel of Cassette harks back to the industrial roots of Kensington, Melbourne.

From small intimate dinners to networking mixers, there are several flexible spaces and set-ups available at Cassette for hosting any celebration in mind.

MAIN DINING

Sitting at the heart of Casette, our main dining room is wrapped around with tall windows, indoor planting and furnished warmly with timber and forest green seating.

The ideal spot for any occasion - comfortably seating 28 patrons or standing room for 40 patrons.

When booked with adjoining Macaulay Room, groups of 40 seated or 60 standing patrons can be accommodated for.

COMMUNAL TABLE

The Communal Table is a casual space for more informal soirees and mingling, best experienced on one of our grazing table offerings.

With great looks into the hustle and bustle of the open kitchen and bar, up to 25 patrons both seated and standing can socialise and soak in this Cassette space.

MACAULAY ROOM

Nestled behind the Main Dining room, the Macaulay Room is a private, sunlit pocket of Cassette with versatility.

This space can accommodate 18 seated guests for an intimate dinner and has AV capabilities and privacy curtains for more corporate affairs.

OUR ETHOS

Whether it's our root-to-stalk cooking, our tapped bar set-up or being powered by 100% GreenPower, Cassette does its best to operate and champion a circular, sustainable venue.

What you'll be served at Cassette will be reflective of the seasons, making the most of local availabilities and the community of producers around us. We aim to go as local as possible to limit food mileage and to utilise what's coming fresh from the ground.

Nothing goes to waste here. What little food waste we can't reuse will be composted by our on-site bio-composter and returned to our veggie planters.
